MORAES

MOST HATED JUDGE OF BRAZIL

Writing Moraes, *The Most Hated Judge of Brazil* was not just an intellectual endeavor but a pursuit of truth in a time when freedom of speech is under siege. This book would not have been possible without the support, encouragement, and sacrifices of many people. First and foremost, I thank God. Even though He is not a human being, there is no one else that I talked to more during the process of writing this book. In moments of doubt, frustration, and determination, He was my greatest source of strength and clarity. I also want to thank my wife, Shannon Vidal, for her patience, understanding, and unwavering support during the long hours I dedicated to this work. Your encouragement kept me going, even when the weight of the subject matter felt overwhelming. To my son, whose innocence and curiosity remind me daily why the fight for freedom is essential—I know I possibly had to sacrifice quality time with you, my boy, in order to keep writing this book, but one day you will understand why I do what I do. My greatest hope is that you grow up in a world where truth is not silenced. To my family and close friends, who have stood by me despite the risks and challenges of exposing the judicial overreach in Brazil, your support means everything. A special acknowledgment to those who dared to speak up against censorship, including journalists, content creators, and political dissidents who suffered persecution under Alexandre de Moraes's rulings. Many of them lost their voices, their careers, and even their freedom.
